

How does MAPEI help its customers benefit from LEED requirements?

What does LEED mean in the flooring installation industry?

What is MAPEI doing as a corporate citizen to address the LEED initiative?

12 Shades of MAPEI's "Greenness"

Our 'Green' Policy

At MAPEI we are committed to protecting the earth, using energy and resources sustainably, minimizing waste, and developing and supplying products with user-safety in mind, while being good corporate citizens.

MAPEI is committed not only to manufacturing the best products for the building industry, but also to providing leadership in sustainability improvements that will be documented and reported periodically.

This commitment will be good for our business, our environment and the community at large.

Products developed with MAPEI's "green innovation" are LEED-compatible, helping to contribute valuable points toward LEED-certified projects.

Since 2001, MAPEI has been a member of the U.S. Green Building Council in support of sustainable construction products and practices.

The company also became a member of the Canada Green Building Council in 2008.
