

Green

Blok-Lok is committed to the environment and sustainability. Green masonry construction methods can be integrated into buildings at any stage: design, construction, renovation, restoration and deconstruction. We offer a wide range of products and services that will contribute to LEED certification requirements and maximize both the economic and environmental performance of your Green masonry projects.

As you navigate this website look for the LOGO HERE to quickly find our green products.

LEED forms are also available for download.

Building green is a benefit to everyone and respects our community and the environment.

Blok-Lok is a member of the Canada Green Building Council.
