SL 2™ LEED Product Information

SL 2™ is a two component self-leveling polyurethane used for horizontal joints in concrete either interior or exterior.

Manufacturing Locations

Brighton, Colorado (approximately 22 miles north of Denver)

Recycled Content

BASF Building Systems certifies that SL 2™ is manufactured with less than 5% of post-consumer material recycled content from the normal recovery of raw materials in manufacturing processes.

VOC Content

BASF Building Systems certifies that the V.O.C. (volatile organic content) of SL 2™ when mixed is between 64.6-93 g/l and will therefore contribute toward LEED EQ Credit 4.1: Low Emitting Materials: Adhesives & Sealants. Please refer to BASF Form No. 1017903 for more information.

Respectfully,
